DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- **Group I**, claim(s) 1-4, 6, and 14-19, drawn to a method of manufacture.
- **Group II**, claim(s) 7-10, drawn to a substrate for an LCD.
- **Group III**, claim(s) 11-13 and 20, drawn to a dispersion of spacer particles.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I relates to a method of manufacturing an LCD having specific properties of liquids in a dispersion medium with specific diameters upon substrate adhesion; Group II relates to a substrate of an LCD having spacer particles attached at a certain contact angle; and Group III relates to a dispersion of spacer particles involving specific polymerization and chemical reactions. Therefore, Groups I, II, and III lack a single general inventive concept or special technical feature to satisfy the conditions for unity of invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
